

## **You're on an Island**

by Lindsey Eck

You're on an island  
I'm out on the plains  
You're on a piling  
while I stare at a train  
I hope you stay dry  
while I'm pining for rain  
    You're on an island  
    I'm on the mainland  
    Elemental moon on the wane

You're on an island  
with walls all around  
watching the liners  
that are crossing the sound  
You've got something of mine  
I hope you like what you found  
    You're on an island  
    I hope you are smiling  
    I hope nothing is running aground

You're on an island  
Come back ashore  
Just for a while  
like a lifetime or more  
Nautical miles  
more than ever before  
    You're on an island  
    The prairie is silent  
    until I hear your knock at my door
