

## **Judgment and Vision**

(Matthew 7:1–5)

Don't judge other people  
lest you face the judgment too

Whatever is your standard  
will apply to your own case  
Whatever measure you mete out  
is the measure you will face

How can you tell your brother:  
"There's a tiny speck in your eye —  
let me remove it for your benefit"  
when meanwhile your own vision has a beam in it?  
You're just a hypocrite

Clear the plank from the eye  
that belongs to you  
then try  
to collect the little speck out of your brother's view
